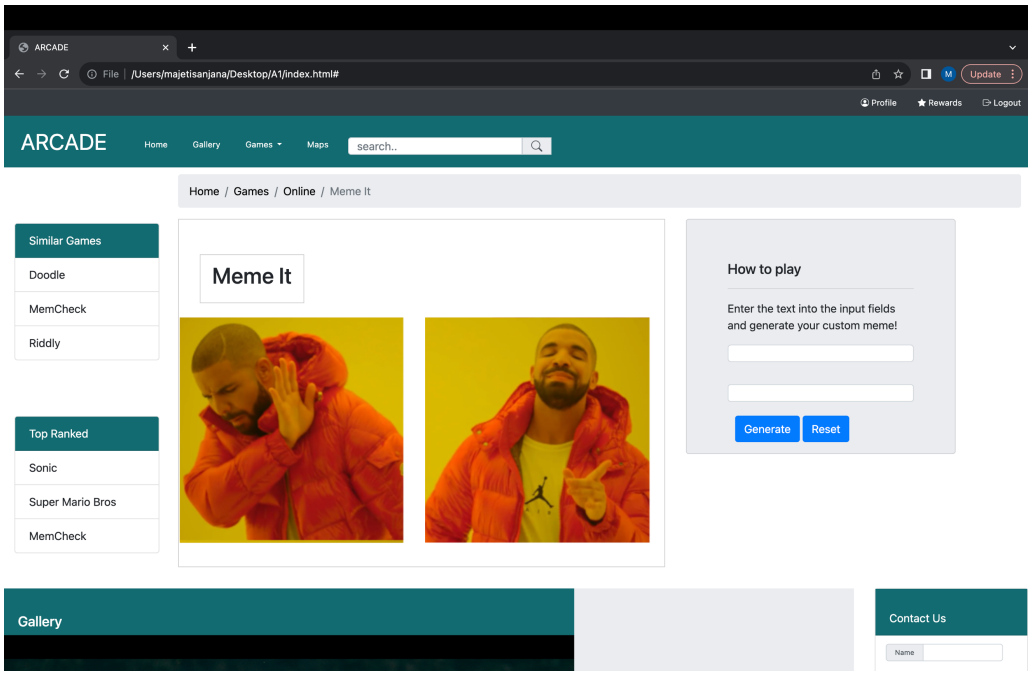
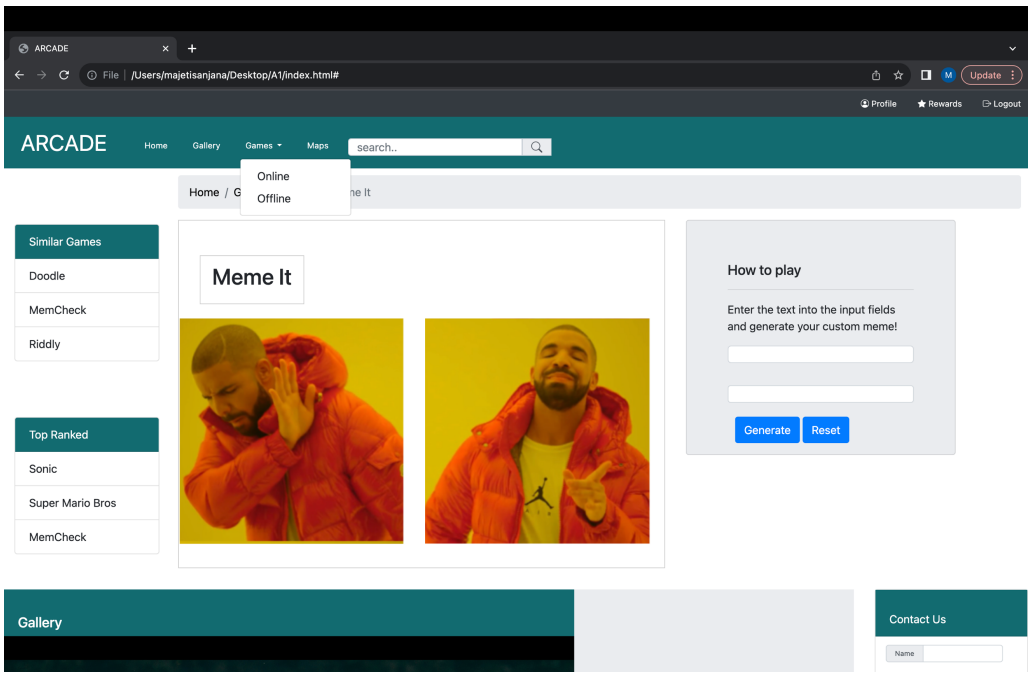
Web Programming Languages – Assignment 1

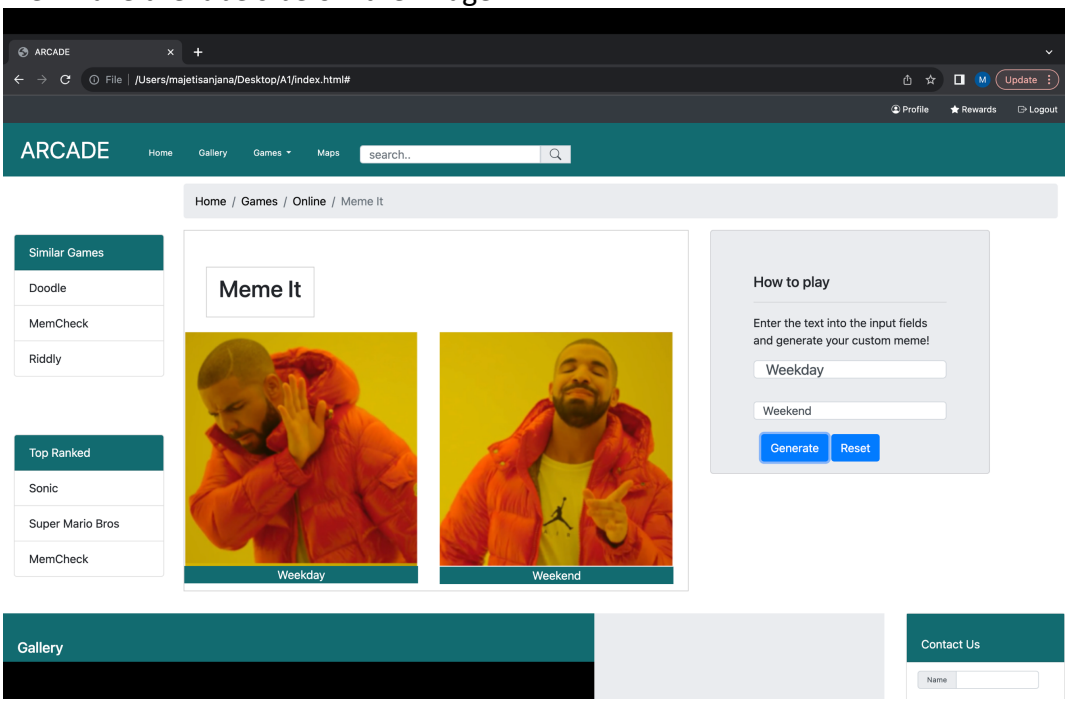
1. First page of the website Arcade.



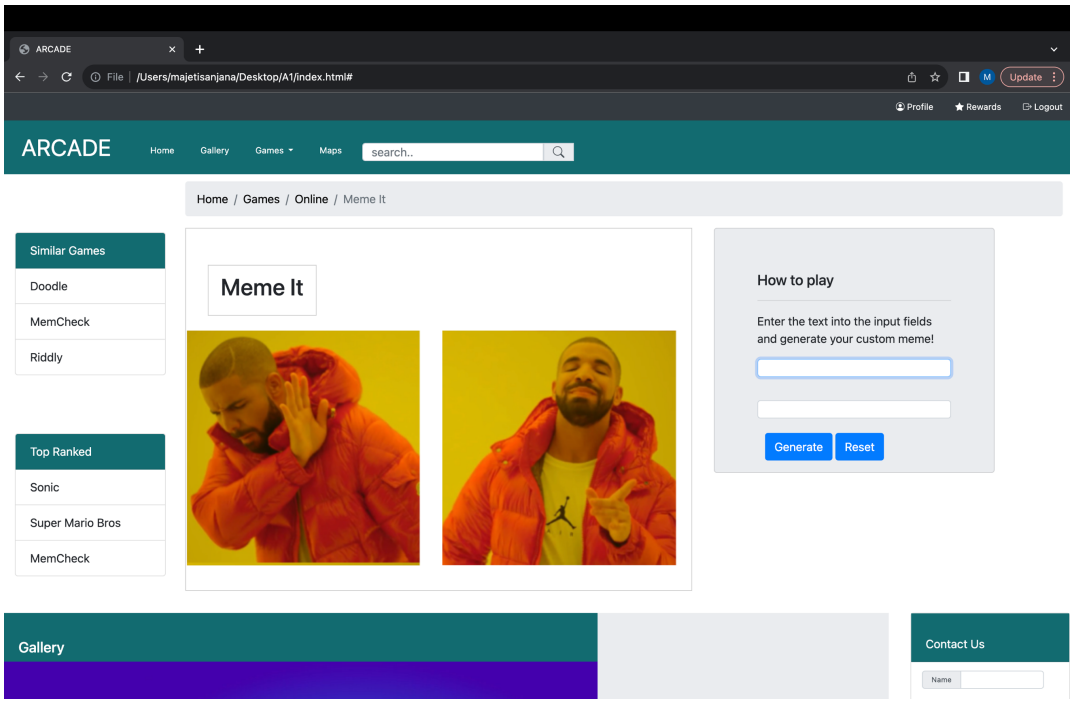
2. The Games drop down has two options Online and Offline.



3. Now, entering the data in the input fields and clicking on Generate. On clicking generate, we'll have the labels below the image.



4. By clicking on Reset, the text fields will be cleared, and the focus will be on the first input field.



5. Second page of the website Arcade and the images of the carousel.
